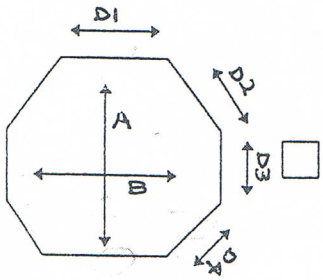
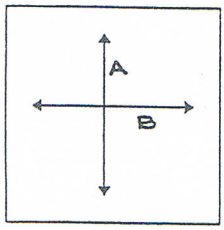
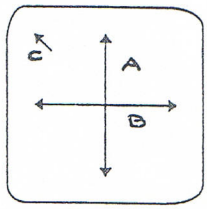
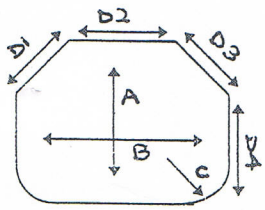
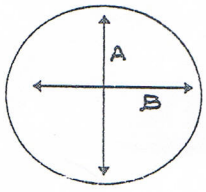
SPA COVER ORDERING DETAILS











Measurements: COVER SIZE

Length (A)

Width (B)

Height of Lip

Radius round corners(C)

Length of sides (D1) (D2) (D3) (D4)

Position of any controls over 2.4cm high (if any) from a projected corner to the centre of each button

Please note always measure from the very outside of your spa, the lip occassionally flares out.
Measure the length of a side when corners are rounded by making a projected corner using two straight edges and measure from there to the other projected corner.
Measure radius of corners (C) by measuring from a projected corner back to where the spa touches the straight edge (see diagram 1.)

Make and Model if known

COLOUR

Green Grey Blue Burgundy Charcoal Beige Tan
